

THE GLOBE-REPUBLICAN

BE FORD CO. CLERK, KANSAS, THURSDAY, MARCH 29, 1906

THURSDAY, MARCH 29, 1906

THIRTIETH YEAR, VOL. XXIX, NO. 25

THREE ELEVATORS

FARMERS' ELEVATOR COMPANY ABOUT TO BEGIN WORK

ON THEIR PROPOSED ELEVATOR

Walnut Creek Milling Company,
Also Martin Brothers to
Start Soon

The Farmer's Elevator Company which is being organized to build and operate an elevator at Dodge City got down to business at their meeting last Saturday. The site owned by Mr. Hoover was examined and accepted, and the work of raising the subscription was continued. The site is located between the Santa Fe and Rock Island tracks so that switch privileges can be had with both roads. It will be a devoted site and the company will have the advantage of owning its own land.

The constitution and by laws are drawn with a view to give each wheat raiser the best profit possible upon all of the grain which he raises, and the profits made in buying and selling grain raised by people outside of the company are divided among the share holders.

The capital stock of 10,000 will be divided in small sums among so many wheat raisers that the elevator will be assured a very large business.

A board of directors is to be elected at the meeting next Saturday and the charter will be applied for at once. The stock holders think that every thing will be in readiness to start work upon the building next month.

A large number of wheat raisers are still wanted in the company and it is desired to have every one who is interested present at the meeting here on next Saturday.

Offers have been made by some to take large amounts of stock but the wheat growers want it held in smaller shares so as to take in a larger number of stock holders.

The offices in the company will be held by resident wheat raisers, and as the constitution is in a part framed after those of Farmer Elevator Companies that have been running with financial success for several years the stock will not only be valuable for securing the elevator but it will be a good business proposition all around.

ELEVATOR MOVEMENTS

Walnut Creek Milling Company Will Build—
Martin Brothers at Work Monday.

Santa Fe officers were here yesterday looking over available elevator sites with a view to granting building places for elevator and milling companies who have sent in applications.

The Walnut Creek Milling Company of Great Bend expect to begin work on a large elevator here within a week or two, and the location of their site is to be determined within a few days. The elevator business established by this company is to be in charge of L. R. Miller.

Martin Brothers, who secured a site some time ago will begin next week to move their building, and they expect to have every thing in working order before harvest.

Bids Wanted.

Up to 12 m. April 14, bids will be received by the board of highway commissioners of Royal township for the building of two concrete piers at the Sawlog crossing between sections 20 29 in township 25, range 25. Cement to be furnished by township. Plans may be seen at office of county clerk.

St. S. H. KING, Clerk.

BARN DEMOLISHED

Small Twist in Wind Sunday Wrecked two Barns

Last Sunday evening a short rain storm came up from the south west and while the wind was rather hard it was generally thought to be harmless. At the north west corner of town, however, there was a little kink in the wind that had a slight resemblance to the "twisters" which they sometimes have in Texas and Oklahoma.

The barn at Mr. Lohr's place was caught by the kink in the wind and was pretty badly demolished.

Another barn, at the place where B. A. French lived until lately was also blown down. The kink seems to have been a small one and it did no further damage.

Protect yourself against wind storms. See M. W. Evans, Jr., for tornado insurance.

Letter to Mr. Frank Chapman, Dodge City, Kansas.

Dear Sir: Let's talk it right out before folks; there's nothing to hide in your business or ours; if there is, we'd better hide ourselves.

We are in trade to make money; so are you. We make it by saving our customers' money; so do you. Our object, in trade, is to save your customers' wood from rotting and iron and steel and tin from rusting; yours the same.

We work for thousands of property owners; you for a few. We can do some things that you can't do; we have the facilities. You can do some things that we can't; you are there. Let us work together; be faithful to one another. We can serve our customers better by working together and being faithful to one another.

Your dollar, put into our paint, will paint more feet than in any other way; and the paint will last longer. This saves you money, and saves your customers' money. That's all there is in our whole business.

Yours truly,
F. W. DEVORE & CO.,

New York, Chicago and Kansas City
P. B. Sturgeon Bros. Lumber Yard sells our paint.

TRIP TO CANEY

Excursion from Dodge City to the
Much Talked of Gas Well.

The Santa Fe will run an excursion to Caney on Sunday, April 1st. The train will leave Dodge City, Saturday evening at 10 o'clock and will arrive at Caney at 11 o'clock Sunday forenoon. The return train will leave Caney at 9 o'clock Sunday evening.

This excursion is run for the purpose of giving the people an opportunity to see the flaming gas well, which is said to be a wonderful sight. The low rate of \$4.00 for the round trip has been made from this point by the Santa Fe.

The Kansas State Board of Health.
Reports on baking powder in Bulletin No. 1, that,

"The value of a baking powder depends upon the amount of available leavening gas that is set free in baking."

The analysis shows Calumet to have 12.41 per cent of leavening gas; about 1 per cent more gas than any other high grade powder, and about 50 per cent more gas than the cheap powders.

In buying a baking powder the object is to get one that will leave your baking light, sweet and easily digested. Calumet will do this, because it has more leavening gas than any other powder and it leaves the food free from Rochelle Salts, Alum, Lime, Ammonia or any injurious substance. Therefore, this baking powder is recommended by leading physicians and chemists.

For Sale.

Thirteen head of brood and work mares for sale at Stone's feed and sale stable.

St.

GEO. CURRY SAFE

Rumor that Former Dodge Boy Was Killed in Philippines

Governor George Curry who is in charge of an island in the Philippines, was reported missing after a disastrous little battle last week, but later reports proved that he had only been put to the necessity of swimming a river to get away from the danger.

Mr. Curry is a former Dodge City boy and is a brother of Billy Curry of the Bargain Store force. He enlisted during the Spanish American war and later went to the Philippines.

MINISTERS ASSIGNED

Rev. Barton Sent to Larned, and Rev. Imboden to Come Here

The Southwest conference of the Methodist Episcopal church closed its session at Hutchinson Monday evening.

Rev. W. B. Barton who has been pastor of the church in Dodge City was assigned to Larned, and will be succeeded here by Rev. F. W. Imboden.

Rev. Barton has made many friends in Dodge City, and the members of his congregation as well as the people of the town in general will regret his leaving here. As a neighbor, citizen and minister he has been highly valued, and the people of Larned, to whom he probably goes as more or less of a stranger, may congratulate themselves upon securing him.

The following assignments were made in this, the Larned district:

J. F. Irwin, presiding elder. Blanton, A. J. Bixler; Burdette, James M. Alexander; Clinnaron, C. D. Danne; Dighton, Louis W. Chambers; Dodge City, F. W. Imboden; Garden City, L. M. Riley; Garfield, J. L. Rutan; Healy, S. W. A. Pratt; Jetmore, T. A. Spencer; Kinsley, C. E. Wood; Lakin, H. A. Schneider; Larned, W. B. Barton; Larned circuit, R. E. Riggs; Leoti, F. E. Gordon; Lewis, D. E. Votaw; Ness City, Oliver M. Kew; Ness City circuit, C. T. Hudnall; Richfield, James Westwood; Rush Center, T. C. Maxwell; Santa Fe, H. W. Cox; Scott City, F. M. Romine; Spearville, George Harvey; Syracuse, Thomas A. Brunker; Tribune, Alfred N. Hewitt; Wendell, Steadman Aldis.

NEW MASONIC BUILDING

Dodge City Masons Contemplate Building a Fine Home.

The Masonic Lodge here has contracted for the purchase of the corner owned by Fred Gardner, north of the Jones & Hanna Grocery and expect at some time later to build a hall and business block.

The definite plans have not been announced, but the building will probably be a brick structure two or three stories high with business rooms on the ground floor.

Review of Weather.

For week ending Wednesday, March 28, 1906, as furnished by T. J. Conditine of the local Weather Bureau.

The weather during the week continued below the standard of past years, the temperature being 28 degrees below the average of 31 years. The precipitation, however, exceeded the thirty-one year average by .12 of an inch. Compared with the corresponding period of last year, the records show a deficiency in temperature of about 12 degrees per day. The precipitation in 1905, was decidedly below that of the present year. The maximum temperature for the week was 81 degrees and occurred on the 25th and the minimum temperature was 26 degrees and occurred on the 23rd. The weather was cloudy on five days and partly cloudy with some sunshine during two days of the week.

Judge Preston a Candidate

In this issue will be found the announcement of W. H. Preston, who is a candidate for the office of Probate Judge, an office which he holds at present. Mr. Preston is an old settler and a man who has many friends all over the county. He has always, during his long residence here, held the respect and confidence of the people of Ford county and he will be a strong candidate. The records in the office have been well kept during his term, and his past record in office is an assurance that it will be well conducted should he be nominated and elected for another term.

"Messiah" Special Train for Lindsborg Friday Morning, April 13th.

The special train for Lindsborg over the Santa Fe leaves Dodge City at 8:00 Friday morning, April 13th. Round trip rate \$5.25. A good opportunity to hear the "Messiah" and Innes' famous band.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

BUCKLIN BREEZES

Judge E. H. Madison was in Bucklin for a while, Wednesday.

Chas. H. Dellinger has accepted a position with the Inter National Harvester Co.

H. P. McManis sold for Peter Knepp to Chas. D. Weaver, the S. E. 1/4 of section 24, township 29, range 23.

Ed Warner was the purchaser of the boiler and engine of the creamery that was sold for taxes. His bid was \$150.

J. W. Walters has taken the position vacated by Frank Campbell in yards of the C. R. I. & P. Ry. Co. at this place. Frank Campbell has moved to Holton, Kans., where he has a job with the Rock Island.

Fred Kaufman of Hudson, Kans., was in Bucklin the first of the week, removing the fixtures out of the building on Main street, where he formerly had a restaurant. He informs us that he has sold the building.

Rev. G. E. Tuttle, formerly pastor of the M. E. church here, has been assigned to pastoral work at Macksville, Kansas. We understand that the Rev. C. E. Williams is assigned to the work at Bucklin for the ensuing year.

Well, we think that the ground hog is sure working over time on this weather. It looks as though the coal dealers had entered into a conspiracy with him, to prolong this unseasonable weather in order to enable them to work off their stocks of coal on to a down-trodden and octopus ridden public. Well there is one consolation, the wheat crop is being saved almost every day by a slight fall of snow and rain.

We have always been told that death and taxes were no respecter of persons, and now we believe it. On Tuesday U. der Sheriff Northrup came down from Dodge City and actually sold for taxes, the boiler and engine of the creamery, at this place for taxes, and would have sold the entire plant had it been necessary in order to raise the amount required to satisfy the rapacity of the inexorable tax collector. Just to think that they had no respect to the almost sacredness of this plant, that has stood here undisturbed almost four years, a silent monument to the memory of the hot air capacity of one Tibt Hamilton.

NOT A PATENT MEDICINE

Hyomel a Scientific Treatment for Catarrh by Breathing Medicated Air.

Ever since Hyomel has been known, its formula has been given to physicians, druggists, and, in fact, to all intelligent people who could appreciate the true merit of the combination of healing gums, oils, and balsams, of which it is composed.

Many leading physicians endorse Hyomel and prescribe it for catarrhal troubles. In fact, quite a few of them use it themselves to break up a cold and prevent pneumonia. They regard it as a natural, yet scientific way of curing catarrh.

Breathed through the pocket inhaler that comes with every outfit, Hyomel destroys all catarrhal germs in the air-passages of the throat and nose, soothes and heals the irritated mucous membrane and effectually drives from the system all traces of catarrhal poison.

No one should confound Hyomel with the patent medicines that are advertised as catarrh cures. It is as superior to them all as the diamond is more valuable than cheap glass.

The complete Hyomel outfit, consisting of a neat pocket inhaler, a medicine dropper, and a bottle of Hyomel costs but \$1, and extra bottles can be obtained for 50 cents, making it the most economical method of curing catarrh, as well as the most reliable.

Rath & Bainbridge have sold a great many Hyomel outfits and have seen such remarkable results from its use, that they sell it under an absolute guarantee that it costs nothing unless it cures.

For Rent.

A small alfalfa farm. Four miles west of Dodge City, on the river; suitable for chickens, cows and Al garden spot. Everything furnished.—Jno. C. Keech.

Doctors Are Puzzled.

The remarkable recovery of Kenneth Molyer, of Vanceboro, Me., is the subject of much interest to the Medical fraternity and a wide circle of friends. He says of his case: "Owing to severe inflammation of the Throat and congestion of the Lungs, three doctors gave me up to die, when, as a last resort, I was induced to try Dr. King's New Discovery and I am happy to say, I saved my life." Cures the worst Coughs and Colds, Bronchitis, Whooping Cough, Hoarseness and La Grippe. Guaranteed at Rath & Bainbridge drugstore. 50c and \$1.00. Trial bottle free.

ONLY TWO MORE WEEKS TILL EASTER

Attest:	G. M. HOOVER, Mayor.
SEAL	S. GALLAGHER, City Clerk.

Excursion to Caney, Kansas

Flaming Gas Well

The Santa Fe will run an excursion train from Dodge City, Saturday night the 31st at 10 p. m. arrive at Caney 11 a. m. Sunday morning, April 1st. Those who wish to see the Flaming Gas Well, one of the grandest sights ever exhibited in the State of Kansas, should accept of this low rate via the Santa Fe. \$4.00 for the round trip Dodge City to Caney. The return train will leave Caney at 9 p. m. Sunday, April 1st giving the people who wish to see this wonderful sight from 11 a. m. until 9 p. m. of that date.

For further particulars inquire at the Santa Fe Ticket Office.
FRED GARDNER, Agent.
Dodge City, March 28, 1906.

Functions of Taste Nerves.
A wine expert was tasting wines. In tasting sweet wines he lowered his head upon his breast. In tasting dry or sour ones he threw his head back. "Why do you do that?" said a spectator.
"I don't know. Habit, I guess," the expert replied.
"You do it," the spectator explained, "because the front of your tongue can only taste sweet things and the back of it only sour things and the movement of your head is for the purpose of throwing the wines upon the right part of your tongue. The taste nerves have different functions, some handling sweets, others sour, others bitters and so on, just as the nerves have different functions, some working the leg and some the arm."
"Well, well," said the expert. "You surprise me. At the same time I'm sure you are right. Everybody, come to think of it, holds sweet things on the forepart of the tongue to get their favor and sour things on the hind part."
